COMMUNICATION

Hon. Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Sir:

Pursuant to the Manual of Patent Examining Procedure,  
§703.08 it is requested that the Examiner attend a demonstration  
of the above-identified claimed invention at The Johns Hopkins  
University/Applied Physics Laboratory in Laurel, Maryland on 15  
April 1981 at 2:30 P.M.

It is believed that such a demonstration would facilitate  
the prosecution of this case and assist in clarifying issues in  
the case. The above indicated time has been discussed with the  
Examiner and has been found acceptable (in a telephone  
conversation of March 20, 1981) by the Examiner, the inventor  
and the attorney preparing the case.

If there are any questions or problems, a call to me at  
953-7100, Extension 7604 at the earliest possible time would be  
appreciated.

Respectfully submitted,  
Robert E. Fischell
